Customer challenges and how monday.com solves them

Executive

The challenge:

- **Lack of visibility**– Dealing with organizational silos. Need more transparency on processes to get a full picture.
- **Lack of ownership**– Duplication of work or things falling through the cracks.

The solution:

Manage all work in one place, centralize your data and collaborate in a shared organized space with Workspaces

Marketing

The challenge:

- Hard to keep up with the business.
- Slow execution: campaign setup and tracking is lengthy, ownership isn't always clear, lengthy review & approval cycles, hard to locate files, workload overload.
- Duplication of marketing efforts.
- Multiple teams unknowingly working to solve the same challenges – resulting in wasted resources and slower time-to-market.

The solution:

Organize, structure and streamline all marketing processes, to achieve constant alignment, operational excellence and shorter response times.

Project Management

The challenge:

- Work under tight deadlines, sometimes deadlines are missed.
- It's hard to keep track of everyone's work and overcome bottlenecks.

The solution:

Reduce meetings and messaging and communicate in the context of work with Boards and items sharing. Turn chats into actions and collaborate through your monday.com boards or create new ones when needed
