Introduction

Mandatory Field Setup enables you to setup that certain fields on records in a table must be specified. You choose a table, a condition field and value, and which fields that are mandatory - and optionally which value each field should have. If you select a conditional field, the content of this field moderates whether the set of required fields should be checked. If the mandatory fields do not meet the conditions, a consequence can be setup per table.

In example it is possible to setup that Customers having 'Customer Posting Group' "DENMARK" must have 'Country/Region Code' set to "DK". If this is not the case, the field 'Blocked' will be set to "All".

Usage example 2: Vendor with a Consequence Setup

We open the Mandatory Field Setup. Access this page by using search.	
Dynamics 365 Business Central	Sandbox Q 🚳 ? (A)
CRONUS Danmark A/S Finance TELL ME WHAT YOU WANT TO DO Customers Vendors Items Bank Accounts INSIGHT FROM THE LAST THREE MONTHS You closed 16 m than in the same period rast year Activities	Ioud Insights ∨ ≡ New > Setup Payments ≣ Excel Reports Reports ■
From the Mandatory Fields Setup List we open the setup on Vendor.	Sandbox Q 🎯 ? (A)
C MANDATORY FIELDS SETUP LIST WORK DATE: 08-04-2019	∏ ≓ ⊀
	$\nabla \equiv 0$
Table ID 1 Table Name Enab. Field Caption Field Value, Condition 1 No. of Fields Setup 18 Customer Image: Customer Image: Customer Image: Customer Image: Customer Image: Customer 23 Image: Vendor Image: Customer Image: Customer Image: Customer Image: Customer Image: Rev Line Image: Customer Image: Customer Image: Customer Image: Customer Image: Vendor Vendor Image: Customer Image: Customer Image: Customer Image: Vendor Vendor Image: Customer Image: Customer Image: Customer Image: Vendor Vendor Image: Customer Image: Customer Image: Customer Image: Vendor Vendor Image: Customer Image: Customer Image: Customer Image: Vendor Image: Customer Image: Customer Image: Customer Image: Customer	Consequence Field Caption Field Value (Locale)
Consider the following example of mandatory field setup.	
Dynamics 365 Business Central	Sandbox Q 🕲 ? 🔥
← ← ← MANDATORY FIELDS SETUP I WORK DATE: 08-04-2019	Ľ ,⊀
Field Setup on Vendor, with Country/Region Code DE	
	Consequence Field Caption Field Value (Locale)
→ 24 E Language Code ENU ENU ENU	
 "Country/Region Code" have the value "DE" 	
 Then the following field are mandatory; "Language", musts be equal to "ENU" 	

In "Field Value", a valid input for the selected field must be provided. When using the option-field "Blocked" on Vendor it allows either; "","Payment" or "All" (without quotes).
In this case, we type "all" in the "Field Value" (without quotes), and hit the ENTER key, or click on another field to change focus.

All users should be assigned the "MANDATORYFIELD_READ" permission set directly or through a User Group.

All users who are allowed to update mandatory field setup should be assigned the "MANDATORYFIELD_SETUP" permission set.

Any user who is allowed to run the Assisted Setup Wizard requires the "MANDATORYFIELD_SETUP" permission set.

Any user who has either the "SUPER" or "SUPER (DATA)" permission set, already has access to all tables and setup of Mandatory Fields.

User Group

There are one User Group included with the extension.

• MANDATORYFIELD_READ

USER GROUPS WORK DATE: 4/8/2019
