

# Org@Work

## Organize your team schedules between on-site and remote working

### Adapt your company to the work-from-home era

Org@Work allows you to manage remote and on-site activities in a dynamic and flexible way

- End-users fill in their expected schedules according to their professional and personal needs
- Managers can access aggregate team planning and validate or modify them according to company policies
- Company policies such as occupancy rate or allocated work-from-home time per employees can be set up according to your needs
- The app generates dashboards and reports to allow you to effectively implement and steer remote-work policies in your company.

«

Org@work enabled us to build-up employee adhesion and steering capacities to optimize the balance between remote and on-site work, while respecting the rules we set »

Clément de Villepin,  
Group HRD - Transdev

#### **Anticipate on-site presence and remote-work**
