# Our Service Offerings

## Data & AI

- Business Intelligence & Insight
- AI/Machine Learning
- Data Analytics/Dashboards

## Automate

- Robotic Process Automation
- Business Process Automation
- Chatbots

## Secure

- Enterprise Mobility & Security
- DLP & eDiscovery
- Advance ATP & NIST Compliance

## Measure & Manage

- Cloud Advisory
- Adoption & Change Management
- Microsoft Licensing & Management
- Help Desk & Network Operations

## Collab & Communicate

- Employee Portal
- Cloud Solutions
- Modern Desktop
- Modern Meetings & Emails

# Our Industry Solutions

## Non-Profit

- Grants Management
- Volunteers/Employee Portal
- Application Modernization

## Construction

- Connected Field Service
- Business Process Automation
- Document & Contract Management

## Manufacturing

- Inventory Optimization
- Distributor Relationship Management
- Predictive Maintenance and Analytics

## Financial Services

- Process Automation
- Customer Service
- Self Service Bots
- Secure Teamwork Solution

## Professional Services

- Project Based Collaboration
- Employee Onboarding
- Compliance & Security
- Modern Sales & Marketing CRM Solutions
- Bots & AI

## Healthcare / Life Sciences

- Enterprise Performance Management
- Security & Compliance solutions
- Employee Digital Workplace

# Journey to the Cloud and Beyond

Our full spectrum of cloud services can support your business throughout your journey to the cloud and long after.

We focus on three core areas to ensure your transformation helps you maximize the benefits of the Microsoft cloud, enabling efficiency, productivity and security.

ON-PREMISES TO CLOUD

AUTOMATE

SECURE

# ON-PREMISES TO CLOUD

The first step in the maturity model is to remove focus on “keeping the lights on” and turn towards increasing organizational output.

Through analysis and planning we develop a migration plan to move your hardware, software, data and processes to the cloud.

- Communication
  - Gmail
  - Exchange on-prem to Cloud
- Collaboration
  - File shares to SharePoint, OneDrive, Microsoft Teams
  - File Shares to Azure
  - SharePoint On-Prem to SharePoint Online
- Data
  - Normalization
  - Azure
  - Centralizing

# AUTOMATE

Moving from infrastructure to business value, Microsoft 365 provides many opportunities to streamline repetitive processes, remove distraction when communicating and provide constant feedback on how your business is doing.

- Processes
  - Onboarding
  - Desk Sharing
- Integrated Communications
  - Teams Calling
- Real-Time reporting
  - PowerBi

# SECURE

While important at every step of the journey, the most value gained from security is found after your organization is using Microsoft 365 to the fullest.

Balanced with your Microsoft 365 License investment, we deploy the latest technology to support, not impede, your employees' productivity.

- Individuals
  - Dual Factor Authentication
  - Adoption/Change Management
- Content
  - External Sharing Policies
  - Information Protection
- Devices
  - Endpoint Management

# Get started now!

Call us today to discuss your existing collaboration needs and schedule your Cloud Transformation Journey.
