2 hour – Cloud Adoption Introductory Workshop

JSC IT-Partner AB, Sweden

Initial workshop to introduce your organizations cloud adoption objectives and explore options in next steps on moving to Azure.

At the end of this workshop, you will understand the core elements of Microsoft's Azure Cloud Adoption journey, as well as an understanding of the considerations and the Microsoft Cloud Adoption Framework (CAF) required to evaluate investment and replat forming options onto Azure.

Whether you are being driven by innovation aspirations, cost saving targets, data center refresh cost avoidance or looking towards future proofing existing legacy systems that are past their sell by date. Will we be able to help structure your thinking, provide a set of recommended solution that we ourselves should have chosen. Assist you on practical next steps towards an insight led journey to Azure Cloud.

A summary of the discussed topics will be provided after the session which will articulate your businesses problem statement definition, priorities and key concerns, recommended next steps.
