ABOUT US

orderbase consulting GmbH is an owner-managed company from Münster, Germany.

Since 1999 we specialize in developing Add-Ons for Microsoft Dynamics 365, focusing on order processing-, production- and service management-solutions for SMEs.

We provide comprehensive support services to our partners and customers in terms of conceptual design, implementation and customization of our on-premise solutions and cloud-apps.

Our goal is to optimize process flows by making information more accessible and evaluable, enabling our customers to tackle new challenges and changes of the digital shift.

orderbase software-development is based on 20 years of experience in production- and service-consulting. We are constantly learning from our customers' wishes and feedback to improve our products.
