

Information exchange in a secure environment

ezidox provides a secure information and document exchange platform. Supporting our clients in improving their customer relationships, scalability and productivity.

Improve Relationships

Reduce time spent chasing and processing information by 80% to focus on building meaningful customer relationships.

Build Trust

Over 2.4M documents collected and a scalable cloud infrastructure. Keep customer data safe and support your growing business.

Secure Interactions

The average data breach costs \$3.92M. Detach your business from email and move all data collection to a secure platform.

Increase Profitability

Helping you service more customers and write more business, faster. Our clients have seen up to a 70% rise in profitability.

ezidox is **SOC2 Type 2** certified, **CDR** (ACCC Consumer Data Right) **accredited** and **PCI-DSS** compliant. This means we follow **strict information security policies** and procedures encompassing the security, availability, processing integrity and confidentiality of customer data. This applies to both our customers and our customers' customers.
