Payroll for Dynamics 365 Business Central

Payroll for Dynamics 365 Business Central is a Microsoft Certified Australian Payroll module, deployed within Dynamics 365 Business Central, for organisations seeking an all-in-one Dynamics 365 Business Central administration solution.

Designed for Australian business with ATO requirements in mind, Payroll for Dynamics 365 Business Central internalises Payroll within Business Central's Human Resource module, seamlessly integrating core Business Central functions with comprehensive payroll functionality:

- Comprehensive payroll process requirements;
- Multiple employee bank account
- Multiple pay cycles (i.e. weekly, fortnightly etc.)
- Timesheet entry for job costing and payroll processing
- Entitlements and Allowances
- Deductions and Garnishees
- Payroll Tax
- Termination Pays
- Reversals and Back pays
- EFT Lodgments based on Australian formats
- Emailing of Pay slips
- SuperStream compatible
- Single Touch Payroll compatible
- Employee self service capability
- Business Central Security
- Comprehensive Reporting and Dashboards via Jet Reports and Power BI
- Integrate with a variety of third-party time and attendance tools (subject to criteria)

Payroll for Dynamics 365 Business Central becomes part of your Business Central experience.
