

Polish Functionality – Starter Pack for Microsoft Dynamics 365 Business Central

Installation and Registration Guide

Chapter 1: Description

To start using Polish Functionality – Starter Pack, first you must install the application after contacting IT.integro or your partner, and then register the application.

This user guide describes how to:

- contact IT.integro to have the application installed by IT.integro or your partner,
- register the Polish Functionality – Starter Pack application by sending a license request to IT.integro,
- synchronize the license data.

Chapter 2: Installation

Polish Functionality - Starter Pack is installed as an extension to the base Dynamics 365 Business Central application.

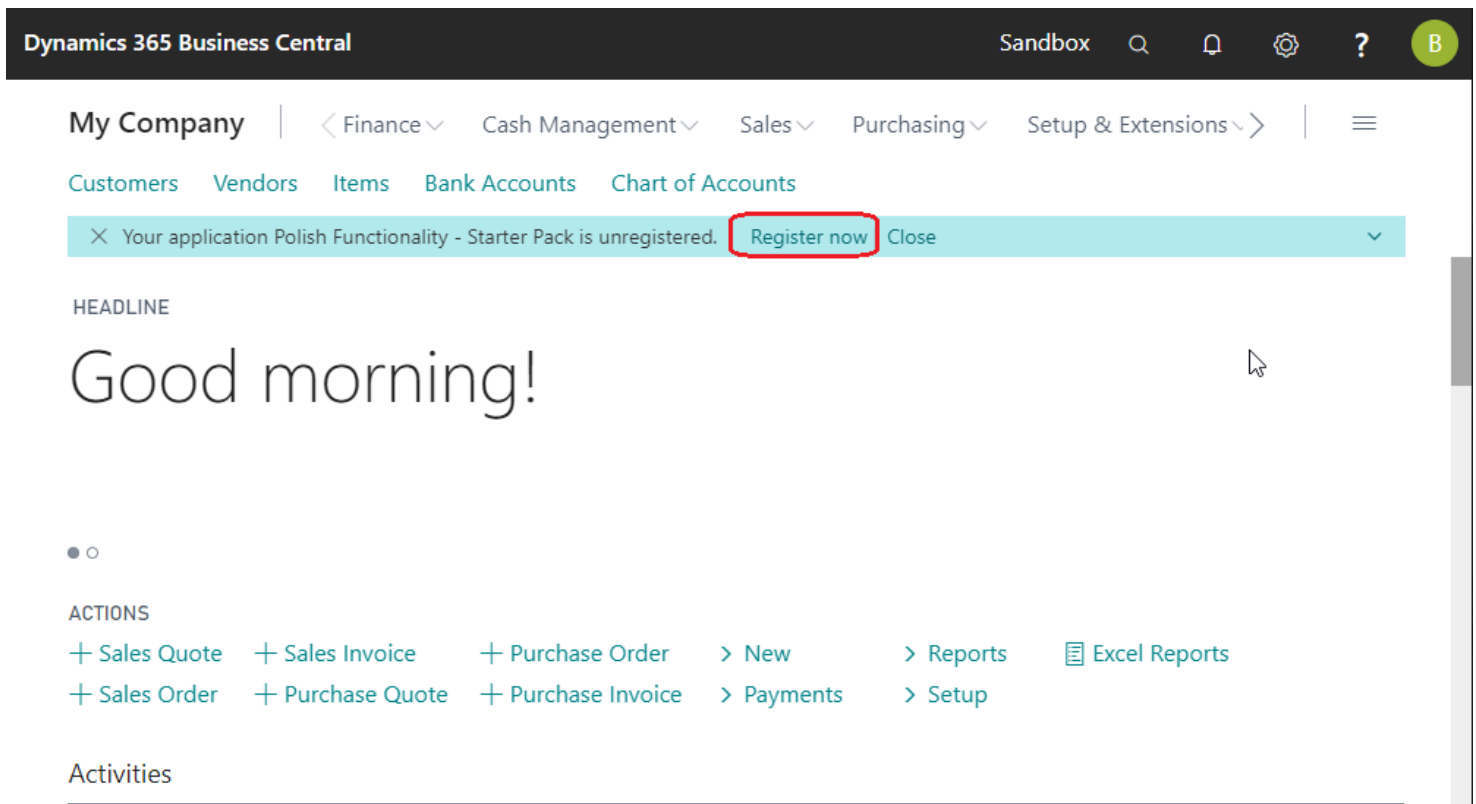

To install the application, contact IT.integro by filling the **Contact me** form available on [the Polish Functionality – Starter Pack offer page on AppSource](#). To open your contact request form, choose the **Contact me** button on the offer page.

After you fill and submit the form, you will be contacted by IT.integro or your partner to proceed with the installation process. The installation process for Polish Functionality - Starter Pack will be managed by IT.integro or your partner.

Chapter 3: Registration

3.1. Step 1

After the installation process is finished, register the application, by choosing the **Register now** action on the notification bar in Dynamics 365 Business Central.

The screenshot displays the Dynamics 365 Business Central user interface. At the top, the header includes 'Dynamics 365 Business Central', 'Sandbox', and various utility icons. Below the header, the navigation pane shows 'My Company' and several functional areas: Finance, Cash Management, Sales, Purchasing, and Setup & Extensions. A notification bar is visible, containing the message 'Your application Polish Functionality - Starter Pack is unregistered.' and a 'Register now' button, which is highlighted with a red rectangular box. Below the notification bar, the main content area features a 'HEADLINE' section with the text 'Good morning!' and a 'ACTIONS' section with a grid of buttons for '+ Sales Quote', '+ Sales Invoice', '+ Purchase Order', '+ Sales Order', '+ Purchase Quote', '+ Purchase Invoice', '> New', '> Reports', '> Payments', '> Setup', and 'Excel Reports'. The bottom of the page shows the 'Activities' section.

3.2. Step 2

In the next step, on the **Create License Request** wizard page, fill all the fields required. To complete your license request, choose the **Next** button.
