

AZURE VIRTUAL DESKTOP

“what we promise, we must deliver”

We are a Technology Solutions Provider focused on providing IT solutions that are highly innovative and will add value to your business. We love designing, deploying & supporting technology solutions to solve business problems and meet business needs.

A team of enthusiastic professionals, who love & live technology and are backed by a management that shares the same passion. This, along with more than three decades of experience in the industry, is a winning combination.

Microsoft Cloud Solution Provider (CSP) and Gold Partner for Small and Mid-Market Cloud Solutions (Office 365) & Cloud Platform (Azure)

30+ years of enterprise technology experience with 100+ projects delivered, 60+ managed cloud customers

“Not just vendors, we are your trusted advisors”

ABOUT US

Azure Virtual Desktop

What is Azure Virtual Desktop?

It is a set of technologies from Microsoft Azure that enables IT professionals and Managed Service Providers (MSPs) to create Windows 10 virtual desktops in Azure. It is the only service that delivers multi-session Windows 10 with simplified management.

All you need to get your new Azure Virtual Desktop environment up and running are following two things:

1. Properly and efficiently configured Azure infrastructure
2. Appropriate Windows license to be fully compliant

4 primary Azure Virtual Desktop innovations

1. Windows 10 multi-user operating system, which allows multiple concurrent users to use a single Azure virtual machine as a desktop.
2. User profiles are handled independently of the virtual machine that serves as the user's desktop. These profiles are placed in containers, which are stored separately from the desktop VM in Azure.
3. Microsoft Azure has a new Platform-as-a-Service (PaaS) offering that determines which users end upon which Azure virtual machine when they connect.
4. Azure Virtual Desktop rights are included at no additional charge with multiple Windows 10 subscriptions including Microsoft 365 Business Premium and Windows 10 Enterprise.

Azure Virtual Desktop – Benefits?

Best User Experience – The only multi-session Windows 10 environment along with optimized Office 365 Apps for enterprise

Superior Economics - Simplified licensing and labor savings by moving from IaaS to PaaS

Enhanced Security – Azure Virtual Desktop is built in Azure and connects seamlessly

Simplified Management - Most flexible service allowing you to easily virtualize both desktops and apps

Free Win 7 ESU – Get free extended security updates for Windows 7

Why do you need Azure Virtual Desktop ?

Security and regulation

Financial Services
Healthcare
Government

Elastic workforce

Mergers and acquisition
Short term employees
Contractor and partner access

Specific employees

BYOD and mobile
Call centers
Branch workers

Specialized workloads

Design and engineering
Legacy apps
Software dev test

How will it Save your cost?

Infrastructure

~70%
Savings*

- Windows 10 experience at multi-session cost
- Cost effective compute and storage
- Flexible network provisioning
- Best value compute rate
- Opex spend aligned to business usage

Licensing

~60%
Savings*

- Azure Virtual Desktop managed service included with the licenses you already own
- Savings on RDS CAL with multi-session deployment
- 3-year Windows 7 ESU included

Labor

*~60%**
Savings*

- Lower labor cost because compute and storage move to cloud
- Lower labor cost when you use PaaS services

Deeper look into Security

Azure AD Security Services

Sophisticated security services easily configured through Azure AD (e.g., MFA, CA, etc.)

Reduced Attack Surface

Reverse connect technology eliminates the need to open inbound ports to the VMs

Granular Access Control

Multiple admins can be assigned role-based access control

Isolated User Sessions

Isolated user sessions in both single and multi-session environments

How safe is Azure?

Standardized

Consistent infrastructure across regions

IaaS

PaaS

Compute

Storage

Networking

Uniform deployment via serverless architecture

Serverless Platform

Containers

Microservices

Integration services

Purpose-built, **standardized infrastructure** across geos
Modernized workloads for **simplified deployment**

Global

Largest geographical footprint of any cloud provider with more than **54 Azure regions**

Secure

Microsoft Cyber Defense Operations Center

>3,500 full-time security professionals

6.5 trillion global signals daily

\$1 billion annual cybersecurity investment

**Azure
Virtual
Desktop
can be a
game
changer
for your
business**

**Reduced
Capital and
Operating
Expenses**

**Increased Data
Security**

**Flexibility to
Work
Remotely
Using Almost
Any Type of
Device**

**Instant
Provisioning
and High
Scalability**

**Full Windows
Compatibility**

**Simplified IT
management**

**Improved
Disaster
Recovery and
Business
Continuity**
