Blue Collar AI®

Ingenuity **Amplified**

We are Transforming the Future of Work by Providing Actionable Intelligence to the Last Tactical Mile

WHAT WE DO

| INDUSTRIAL **SOFTWARE**

| DIGITAL **TRANSFORMATION**

Contextere is an industrial AI company focused on human performance. Our Intelligent AI Platform transforms the Future of Work by delivering actionable intelligence to the last tactical mile. Imagine technicians having conversations with machines about error codes, maintenance procedures, service bulletins, or past performance. Our machine learning algorithms extract previously inaccessible data, curate the information, and deliver knowledge that improves productivity, increases skills, and eliminates rework.

Contextere works in the field with you to meet challenges head-on, supporting digital transformation, driving future of work initiatives, and deploying our products to produce results for today and tomorrow.

The convergence of evolving hardware, intelligent software, and shifting demographics has disrupted the traditional models of enterprise information sharing resulting in skill gaps, increased rework, and operational risk.

WHY WE ARE HERE

By 2022, 54% of all employees will require significant re-skilling.
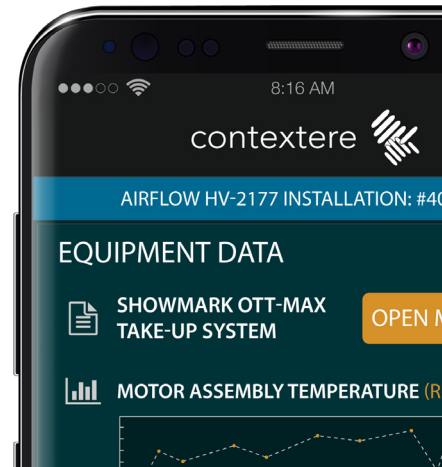

User error accounts for 19% of unplanned downtime.
