

NATIVE AVD: 10-WEEK ADOPTION SERVICES (PREMIER IMPLEMENTATION 6-WEEK + SUPPORT 4-WEEK)

Accelerate your EUC transformation and deliver unmatched end-user experience using Anunta's 10-week Adoption Services covering Custom Deployment services to build and configure Cloud Desktop/ VDI environment using Azure Virtual Desktop (AVD) Native technology followed by Optimization services.

Anunta is a Gold Certified Partner, AMP Certified, ECIF Certified and Cloud Solution Provider for Microsoft.

WHAT WE OFFER

Our Adoption services offer Custom Deployment Services followed by Stabilization Services. We help enterprises, who have taken the first steps towards implementing Cloud Desktops, define a full adoption plan and then take complete ownership of the EUC transformation from discovery, implementing use cases using Single-Session and/or Multi-Session Azure Virtual Desktop (AVD), configuration of advanced AVD features, and migration to complete stabilization of the Native AVD based Cloud Desktops before handing it over as a steady state operations to the customer's IT team in a time bound manner.

BENEFITS

Customer is de-risked of the process of selecting the right Desktop size, application compatibility, technology adoption etc.

Supports quick scaling up of the EUC infrastructure to accommodate large user base.

Smooth upscaling from the initial POC stage to migration of all users across all geographic locations.

Use Azure's global footprint to take Cloud Desktops near to the End Users.

Design Cloud desktop environment and migrate existing workload leveraging Azure's Agile infrastructure.

WHAT OUR CUSTOMERS ARE SAYING

"As an organization that works with 400+ clients, we are committed to our value of 'Client First' and our employee well-being even during the crisis. Anunta helped us to make the biggest shift to a work-from home model with their managed Cloud Desktop solution ensuring business continuity in a secure manner"

– CIO, A leading BPM company

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
