1: First Digital

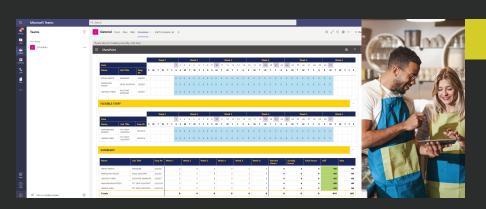

A Power Day workshop geared towards enabling businesses to explore Microsoft's Power Platform.

An all-day Power Day workshop held on site at your offices or remotely via Teams. Get insight into solutions our customers have implemented in order to invest in their First Line Workers.

The workshop covers the fundamentals of the Power Platform as well as deep diving into PowerApps and Power Automate. Learn how to utilise PowerApps on your mobile or embed into a Teams Client. Our highly qualified and experienced consultants will provide hands-on experience in creating apps and workflows and guide your thought process into business process automation.

On completion of the Power Day Workshop, participants will have a clear understanding of PowerApps and Power Automate. They will be able to describe the benefits of business process automation and create basic PowerApps and workflows to aid day to day work processes.

Staff Scheduler

Plan Staff Schedules in the Retail Industry by enabling Managers to identify high traffic stores and forecast employees as needed.

Easily see utilisation of employees and adjust accordingly.
