INVISO

Azure Migration Fast Start:

Applications and Infrastructure

While the long-term benefits of moving to the cloud have become increasingly obvious, migrating can be a daunting prospect. **Inviso specializes in making this journey easy.**

We have developed a streamlined approach for getting your applications and infrastructure deployed to Azure in weeks, not months. Simplify and accelerate your cloud journey by leveraging our proven processes, industry-leading experts, and deep partnership with Microsoft.

Inviso Azure Migration Fast Start: Applications and Infrastructure

Our Fast Start program is designed to demonstrate cloud agility by modernizing a strategic component of your overall infrastructure and/or targeted applications. If you are focused on building governance and management into your core Azure infrastructure, we can work alongside you to:

- Deploy a specific, initial workload with holistic infrastructure management in mind from the beginning

- Establish control of an existing, growing Azure environment while progressing with migration

- Automate the scaling of systems to optimize cost and performance

- Reduce maintenance and support efforts

Engagement highlights

Drawing upon our deep Azure expertise, Inviso will work with you through a comprehensive, four-step process to help maximize the impact of your Fast Start program.

Step 1
**Assess & Plan:
CAF & Governance
workshops**

Step 2
**Provision a
production-ready
Landing Zone**

Step 3
**Deploy a Pilot
(production
candidate)**

Step 4
**Define near-term
migration, adoption,
training, and
optimization activities**
