SOLUTION OVERVIEW

4Share Portal is a cloud native single entry-point enablement platform designed as a modern workspace where people in an organization can connect with one another and their work environment.

Employees traditionally had to perform various business-related tasks in multiple systems and these systems had to be configured with different accounts and access permissions, on web and locally. This could become cumbersome and lead to a decrease in productivity.

4Share portal solves this problem by acting as the central place where you can go and get companywide visibility to your work information, tasks and allow you to action them.

4SHARE CONSISTS OF 3 BUILDING BLOCKS:

The Portal

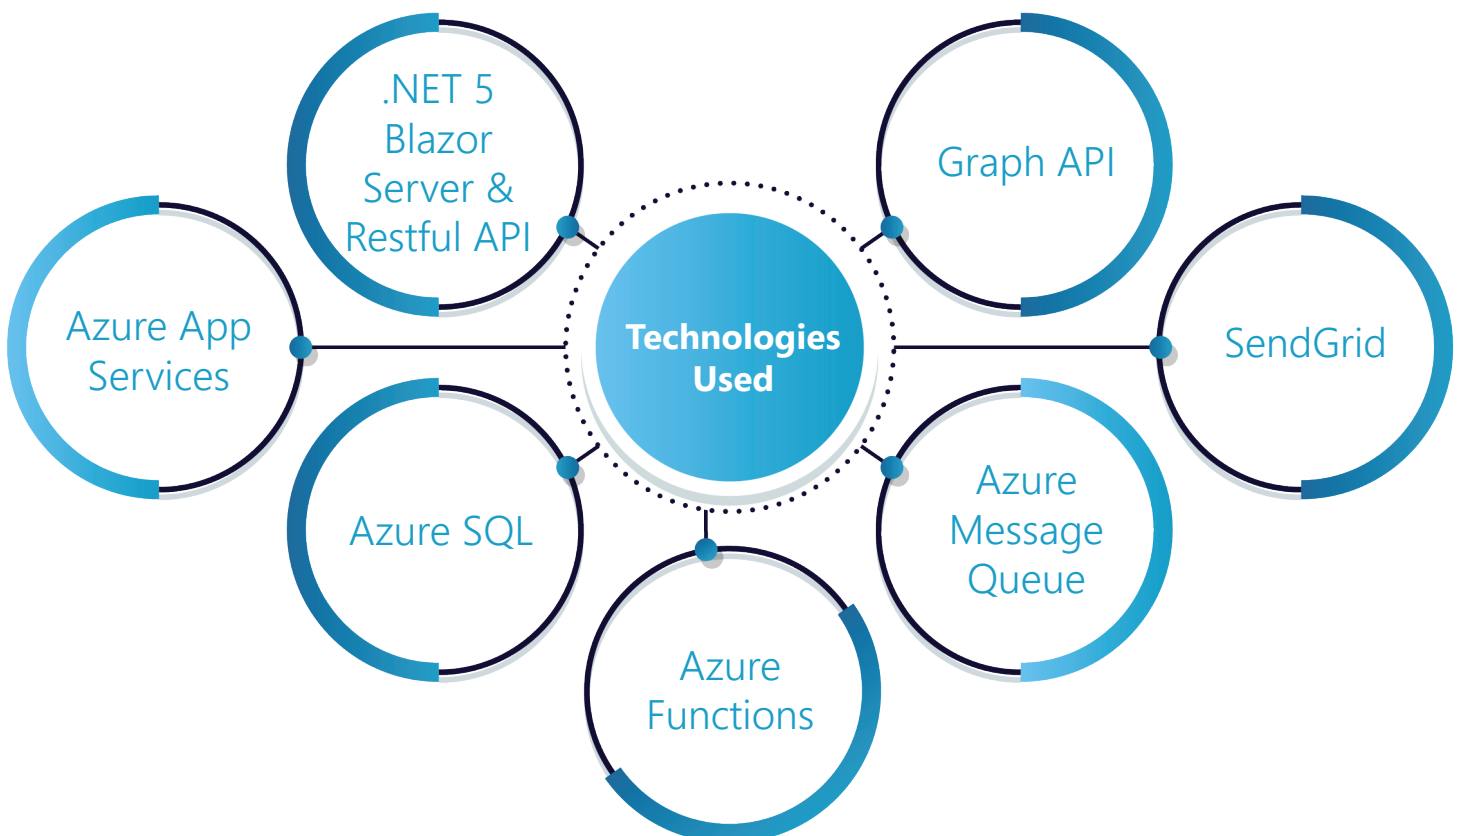

The entry point where users can sign-in, search for, view information and perform their daily tasks.

4Flow

The powerful workflow engine that facilitates data entry and provides process driven approvals on actions originating from the portal or other external sources, integration to external sources updating the data vault.

Data Vault

The enterprises grade data warehouse solution where information is compiled into a Infomart that provides a single view of business concepts like Product, Customer and Employee and thereby becoming the source for the portal's search results, dashboards and reports.

ADVANTAGES

Single secure
sign-on

Single place where
security and roles
define access to
other systems

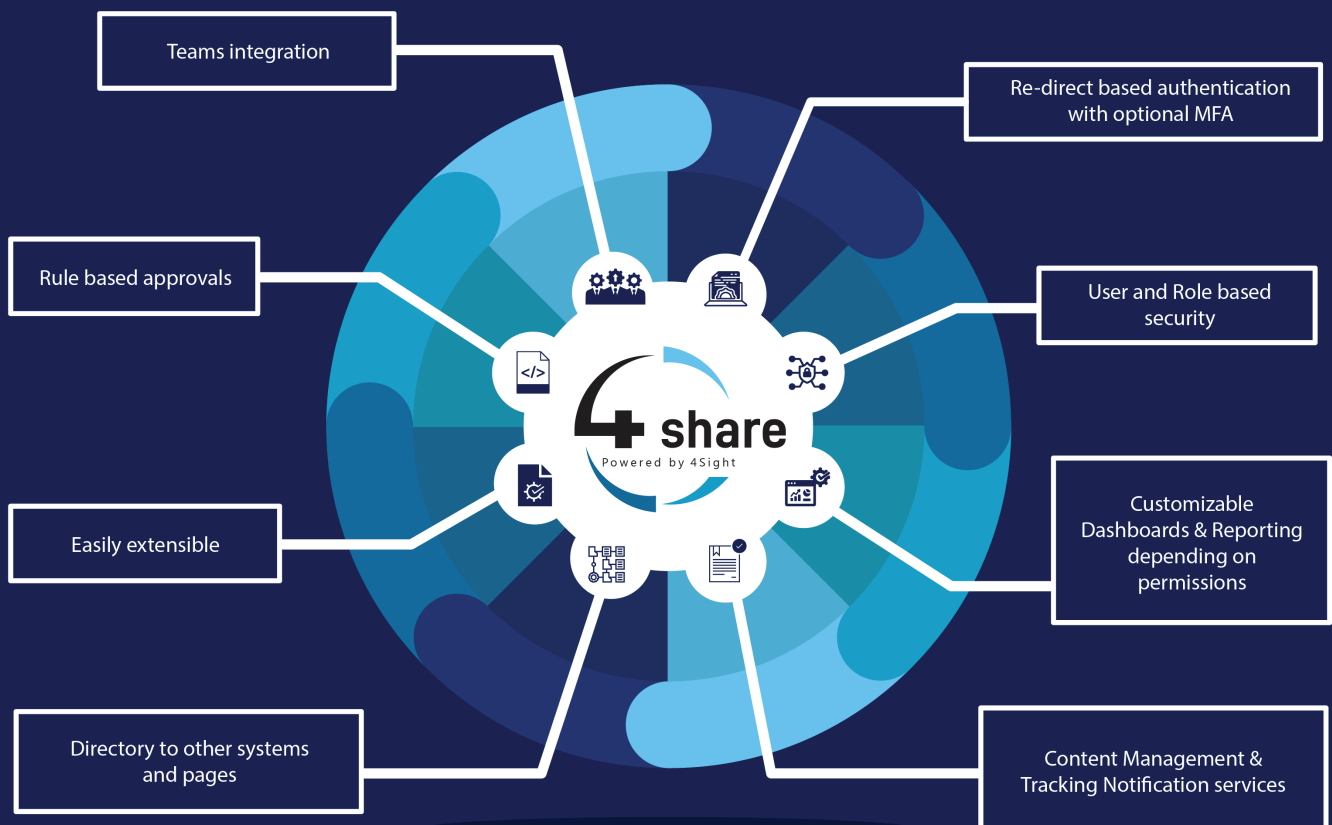

Overview from
multiple external
systems in one
placeInterface
focused on user
experience

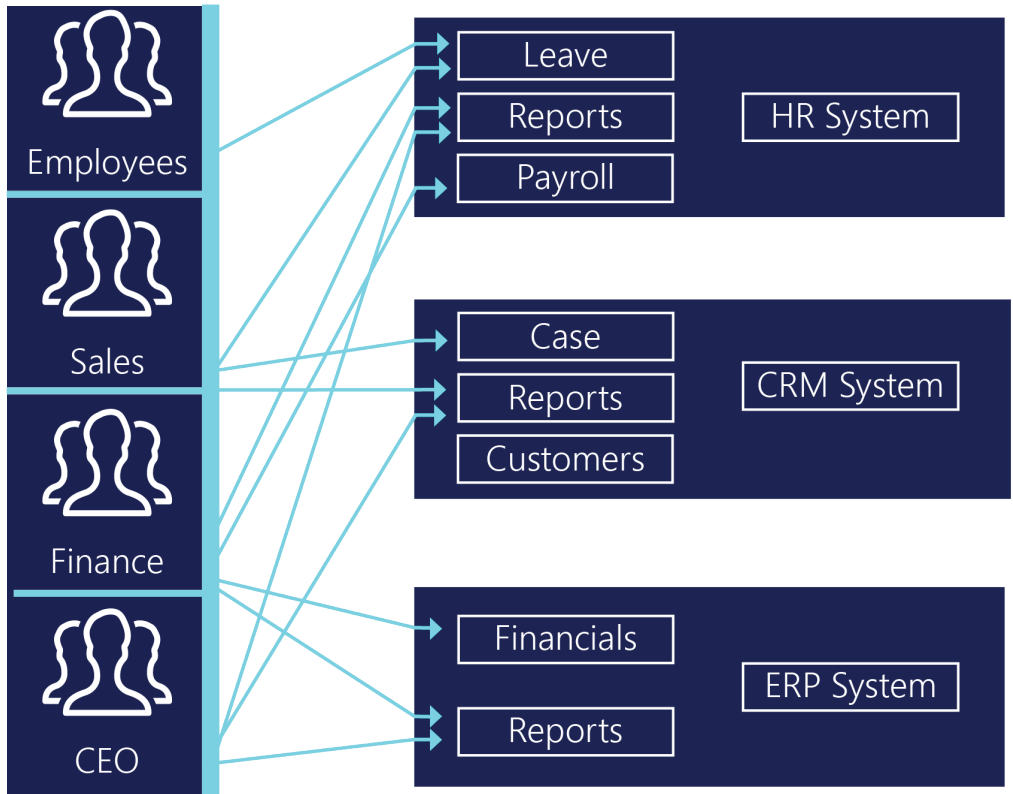

Cloud ready

BENEFITS

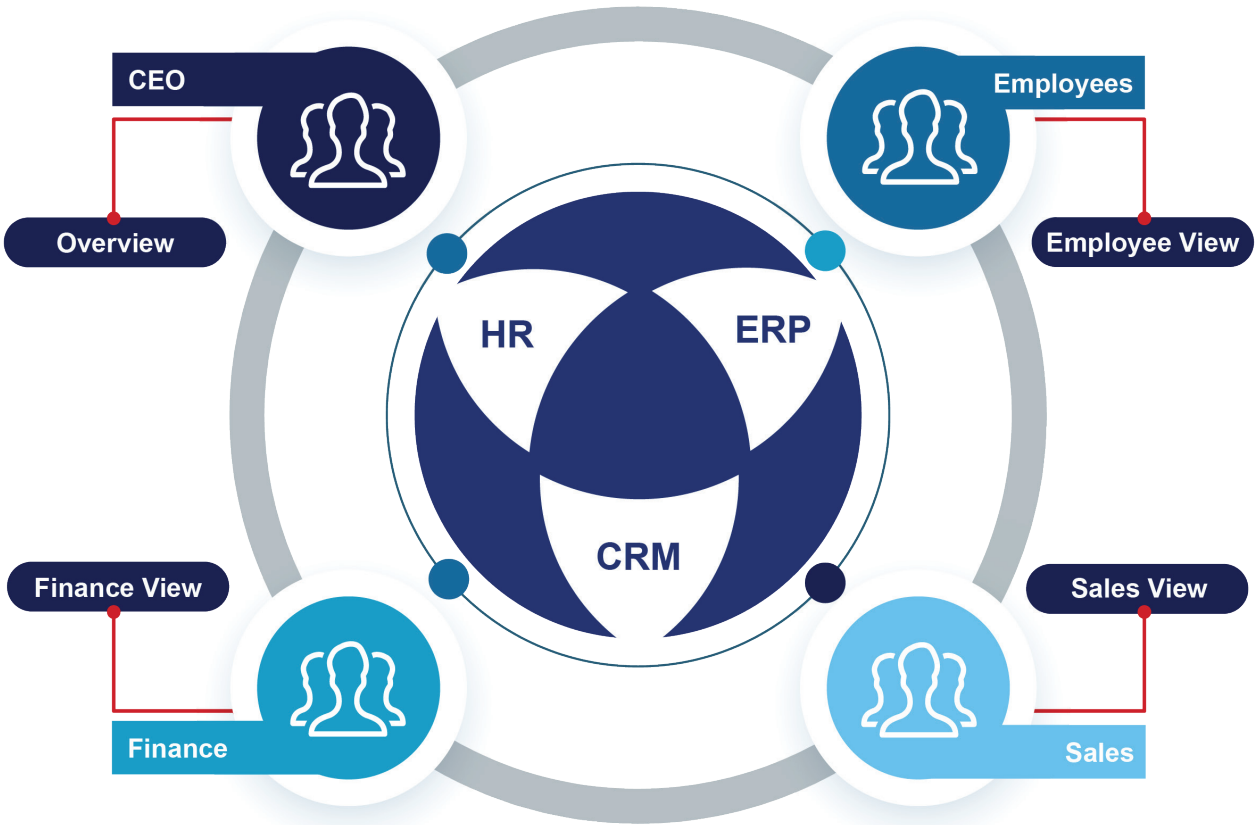

PROBLEM: TRADITIONAL COMPANY

SOLUTION: 4SHARE PORTAL

CONTACT US:

Incorporated in 2017, 4Sight is a JSE AltX (ticker: 4SI) listed, multi-national, diversified technology group. Our purpose is to leverage our extensive product and services portfolio, focused on 4IR technologies, people and data-focused solutions to design, develop, deploy and grow solutions for our partners (customers and vendors).

The company's mission is to empower our partners to future proof their businesses through digital transformation to make better and more informed decisions in the modern digital economy.

4Sight's business model enables its partners to take advantage of products and solutions within its group of companies, which will allow them to enjoy turnkey digital transformation solutions across industry verticals.
