Achieve, Improve, and Adapt in a COVID-19 World

Get up and running in days with adaptive strategies, tied to effective execution, to solve your critical challenges.

The time for adaptive, iterative planning is now.

As your institution scrambles to deal with the unfolding COVID-19 crisis, this isn't the time for protracted planning processes or waiting to stand up a new data warehouse. This is the time for action. To deal with the new reality, you need nimble, adaptive strategies, informed by available information, and tightly tied to effective execution.

Nuventive is here to help.

Adaptive strategies + effective execution = progress

The Nuventive COVID-19 Response Hub is a cloud-based improvement and transformation solution. It allows your institution to drive progress across their critical COVID-19 initiatives, including scenario planning.

With the Nuventive COVID-19 Response Hub, you can:

- + See your progress on execution at a glance at any time, so you can adapt strategies easily as conditions change.
- + Inform problem-solving through the best use of available internal and external information sources, such as any existing business intelligence (BI) system, external web pages, documents, news articles, and more—within days.
- + Make information easily accessible by anyone in the institution, organized by purpose.
- + Capture plans and easily share everyone's thinking, informed by the best information available now.
- + Stay focused on managing the crisis at hand, since the Nuventive team will manage set-up and maintenance of the solution

To help you see your progress and adapt as you go, your plan for managing the crisis can be set up in a cloud environment and tied to key information sources in a week—or less.

Nuventive puts relevant information next to your plan—in the same screen—so you can drill down to understand your progress with live or snapshot-in-time information. Because your people can solve problems with the best information available in the moment, your critical initiatives have their best chance to deliver progress.

Make the most of your existing technology investments

Nuventive unites information from leading technologies in an actionable way. The Nuventive COVID-19 Response Hub is built and hosted on Microsoft® Azure for speed and security. It's designed to connect with your BI and reporting systems, as well as third-party data sources. We're also working with Microsoft® to tie Nuventive's capabilities to Microsoft® Teams, Microsoft® Planner, and Microsoft® Project, to make your existing collaborative and planning infrastructure even more effective.

The Nuventive COVID-19 Response Hub integrates critical information for your initiatives from any data source and instantly gives your team insights on progress.

What will you receive?

- + Quick-start Nuventive solution prepopulated with a framework to bring your COVID-19 plan to life, giving immediate, broad visibility to progress and needs for course correction. In days, Nuventive ties your plan to the best available information in your existing business intelligence/reporting systems and external sources. Special pricing makes it easier to take advantage of this offer, which can be expanded over time.
- Survey for your faculty and staff on their welfare in the face of COVID-19, provided by <u>UC</u>
 San Diego's Tritonlytics team, with results linked as appropriate to your plan in Nuventive.

Pre-populated framework brings your COVID-19 plan to life in a matter of days, giving immediate, broad visibility to progress and needs for course correction. Customers can also use any framework they've already developed internally or with consulting partners.
