

Enabling remote workers with Azure Windows Virtual Desktop Infrastructure

Windows Virtual Desktop is a comprehensive desktop and app virtualization service running in the cloud. It's the only virtual desktop infrastructure (VDI) that delivers simplified management, multi-session Windows 10, optimizations for Microsoft 365 Apps for enterprise, and support for Remote Desktop Services (RDS) environments. Deploy and scale your Windows desktops and apps on Azure in minutes, and get built-in security and compliance features.

Nexus is the first Philippine partner to attain Gold Competency in Office 365 and Windows Azure and was the Microsoft Cloud Partner of the Year (2014) for Windows Azure. Leveraging on these capabilities,

Nexus has 6 Gold Microsoft Competencies: Devices and Deployment, Management and Virtualization, Messaging, Server Platform, Volume Licensing and Data Platform.

Flexible, scalable pricing

With Windows Virtual Desktop, pay only for Azure Virtual Machines and Azure Storage consumed by users during their use of the service. Select deployment options to match your needs.
