

.Net App Modernization Discovery Workshop

ABOUT ALTRON KARABINA:

There are many challenges that come with modernising and digitally transforming an organization. You need a partner that understands the changes that need to take place, and the best way to achieve this.

Accelerator Workshop

The workshop is 8 hours / 1 day

WHAT WE OFFER

In this workshop, delegates will be shown how to evaluate and prioritize .NET applications for modernization. Additionally, delegates will be instructed as to how Microsoft technologies can help increase .NET application resiliency and allow easy scaling, as well as how to modernize existing applications with minimal interruptions

Workshop

Introduction to Application Modernization on Azure

Whiteboard Design Session

Hands-on Lab

The .Net App Modernization workshop empowers organizations with the knowledge to evaluate their applications, plan for their migration and hosting them in on serverless platforms within the Microsoft Azure Platform.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
