Power (Apps) to the People

A 2-Day Power App Workshop

THE SITUATION

Increase agility across your organization and solve your tough challenges and pain points by rapidly building a low-code app in our 2-day workshop.

In this Power App Workshop, we'll help you identify a specific business process issue or pain point that can be solved by developing a Power App. We'll demonstrate how Power Apps uses the Common Data Service (CDS) to store business data, integrates with Microsoft Flow to automate processes, and we can connect your Power App to Excel or other standard MS products if needed.

WHAT TO EXPECT:

- Meeting with MCA Connect on-site or virtually to discuss and identify specific issue
- Co-develop and collaborate on use case and app development
- MCA Connect to demonstrate the Power App to your team and executives
- Identified users will need to download Power Apps to mobile devices
- MCA Connect will grant access to the Power App
- 30-day user evaluation
- Weekly evaluation updates with MCA Connect
- 2 revisions to Power App
- Cost: *Discounted to \$3,200*
