iSMILE TECHNOLOGIES

AZURE BACKUP AS A SERVICE

Willing to have backup on premise and on cloud at minimum cost?

iSmile Technologies provides the best Azure backup solutions.

Our Backup Portfolio Consist of

- Windows, Linux VMs and Workloads using MARS agent
- MS workloads including Microsoft Exchange, SQL Server databases etc
- All on-premises folders, files, systems
- SAP HANA databases operating on Azure VMs
- Local disk backup
- Azure IAAS VMs

Cost Advantage

- Low cost because of usage based pay
- No charge for Azure data transfers of inbound and outbound traffic
- CAPEX cost zero for cloud based recovery

Why iSmile Technologies Backups?

- Long term retention
- Encryption in transit
- Easy to scale
- No maintenance overhead involved
- Multiple replication of all backups
- Unlimited data transfer
- Automatic management of your backup storage

Storage Options With Azure Backup

- **Locally Redundant Storage** - Replication of your data three time and storage in local units
- **Geo-Redundant Storage** - Replication of your data to a secondary region to ensure durability in case of regional outage
- **Zone redundant storage** - Replicates your data in available zones ensuring zero downtime

What you get with Us?

- Best Inclass Azure Backup Service covering number of servers agreed upon in the contract on-premise and in-cloud
- Continuous monitoring, communication and knowledge transfer from our Azure Backup experts
- Easy to manage and costs less than traditional backups
