

# Azure GlidePath™ Governance Plans

Our Azure GlidePath™ services for Governance are based 100% on Microsoft's Azure Cloud Adoption Best Practice Framework that sets the foundation for the *Five Disciplines of Cloud Governance*, which is the most valuable, and often overlooked aspect of a successful Azure Cloud program.

• **Cost Management** • **Security Baseline** • **Resource Consistency** • **Identity Baseline** • **Deployment Acceleration**

## JUMPSTART

- (3) 2 hour Workshops

### Advanced Level

- Clients that are already in Azure but are ready to embrace Access, Security and Governance in the Azure Environment

### Introduction and Discovery of Environment & Hands On Workshops

- Establish a Minimal Viable Product (MVP) in order to adopt Security and Governance in Azure

### Select one of the following Disciplines:

- Cost Management (Financial responsibility)
- Security Baseline (Protect and Recover)
- Resource Consistency (Resources Matching Business Need)
- Identity Baseline (Access and Control)
- Deployment Acceleration (Iteration and Deployment)

### Deliverables

- Recorded Sessions
- Introductions to Tools: Cloud Adoption Framework Benchmark Tools for GAP Analysis across the Disciplines

**Fixed Fee \$7,000 (3) 2 Hour Sessions**

(Additional 2 hr Disciplines can be added at \$1200 each)

## BASIC

- 24 Hours Governance workshop and discovery
- 1-2 weeks Baseline Governance Deployment
