Is it the right solution for my organization?

EduShare is a platform designed to enable the management of e-learning resources, from research and multimedia to ensure that the right content, and the best content, is available when needed.

EduShare is the perfect solution for organizations that need to manage and share extensive digital learning content. This applies to schools, higher education institutes, academies, districts and local authorities, as well as Ministries of Education.

EduShare presents a simple, easy-to-use interface with value-added features that enable every learner to explore and enjoy their educational journey. EduShare's power lies in its simple and flexible design that isn't restricted or overly categorized. It converts existing information into valuable content that is easily ready for exploration and knowledge transfer.
