# Ballard Chalmers

## Azure Migration Assessment for Custom Applications

We are one of the UK's leading custom software development and integration companies, and [Microsoft Azure specialists](#). We have worked with a large number of clients and their legacy systems, getting them cloud-ready, modernising and migrating the applications to Azure.

### EXPERT ASSESSMENT

Ballard Chalmers will assess your application's potential for cloud migration and advise on the relative benefits of moving a legacy system versus modernization.

### TAILOR MADE RECOMMENDATIONS

We will then advise on what will be required to make the application cloud-ready and provide an estimated time and cost budget to move to Azure with documentation.

### FROM EXPERIENCED PROFESSIONALS

With years of experience working with custom applications and a thorough understanding of Microsoft Azure, we are well placed to help you leverage all of the Azure cloud benefits.

# Legacy Custom Business Applications

Today many organisations are faced with legacy applications that require urgent modernisation.

Re-engineering as a modern serverless solution in the Azure Cloud is an option proving to be the best way forward for many organisations.

We understand when systems can be migrated to the cloud as they are or when they need to be to be refactored to gain the full cost and performance benefits that the modern Azure applications can offer.

Transitioning your applications to the cloud requires careful planning, strategy and execution. We are fluent in the processes required for successfully migrating custom applications to the Azure cloud.

We offer organisations our services with the singular goal of meeting your commercial and organizational requirements precisely, so enabling you to better focus on your mission objectives.

# Cloud Migration Assessment for Custom Applications – Why Azure?

When modernising legacy systems, moving to the cloud is the logical choice. When looking at your routes and options, Microsoft provides you with assurance in the Azure platform and we will help you devise the roadmap for getting there.

## BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements to keep you ahead of the curve.

## BUILD ON YOUR TERMS

With a commitment to open source and support for all languages and frameworks, build and deploy in the way that suits you. Take advantage of the full-featured, integrated development environments with built-in support.

## TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

# IT Service Development Manager, CHP

“This was our first experience of working with Ballard Chalmers. They did a great job that allowed us to deliver the upgrade and redesign that we wanted, whilst adhering to best practice. Good project management and highly skilled consultants worked with us to ensure the project was delivered on time and on budget.”

## Managing Director, AppCan

“I’m impressed with their level of technical ability. Their staff is top-notch and they have a thorough understanding of a wide range of technologies. They leveraged their skills to enhance the performance of our products, Ballard Chalmers Ltd is the best agency I’ve ever worked with.”

## IT Manager, Young Epilepsy

“Ballard Chalmers provide us with specialist development, advice and support, and integrate well with our team. We find everyone at Ballard Chalmers very personable, professional and highly skilled. The application has tracked 50,000-60,000 incidents by now and there's been a significant improvement.”

## Head of IT, Imagination

“Moving our system from an on-premises solution to a cloud hybrid solution presented some technical challenges. Ballard Chalmers consultants provided the skills and expertise needed to successfully complete the project. We are extremely happy with the end result and the service provided.”
