Scale from 1 to thousands of user-sessions per virtual machine

Controlled access, from full desktop down to specific apps only

ADDRESS A RANGE OF BUSINESS NEEDS

- Flexible workforce
- BYOD and mobile
- Security and regulation
- Specialized workloads

WINDOWS VIRTUAL DESKTOP

As the workplace becomes more flexible, ensuring all your employees have access to the right tools and technology to be productive is key. Virtualization enables you to create a secure desktop experience for all users, no matter what device they use or their location.

Windows Virtual Desktop is the only multi-session Windows 10 desktop virtualized in the cloud that's highly scalable, always up to date, and available on any device. It is a great solution for organizations with employees who work remotely or across various locations, short-term employees or contractors needing internal access, or currently use on-prem devices throughout their workforce.

With Windows Virtual Desktop, you can scale efficiently on demand, add users quickly and easily, make use of existing investments and legacy technology, meet strict compliance requirements, and more, all with built-in security.

It's the only virtual desktop infrastructure (VDI) that delivers simplified management, multi-session Windows 10, optimizations for Office 365 ProPlus, and support for Remote Desktop Services (RDS) environments.

New container technology enables fast load times and provides a performant experience for Outlook, OneDrive, Cortana, Search, and Teams. Create persistent and non-persistent environments. Virtualize entire desktop or select applications only. Quickly virtualize and deploy modern and legacy desktop apps to the cloud in minutes with unified management in the Azure portal.

NEW CUSTOMERS CAN ENJOY INCENTIVES FROM MICROSOFT THAT INCLUDE UP TO \$20,000 IN FUNDING, AZURE CREDITS UP TO \$15,000, AND ACCESS TO ASSESSMENT AND MIGRATION ACCELERATION TOOLS FOR UP TO 6 MONTHS. OFFER ENDS JUNE 30.

WHO WE ARE

Sirius is a national integrator of technology-based business solutions that span the enterprise, including the data center and lines of business. FiveOut, a Sirius Agency, is an award winning full service digital agency. As experts in business transformation, we integrate technology, data, creative and marketing know-how to build exceptional customer experiences.
