Gold Application Integration

FyrSoft's Azure Synapse Analytics assessment will involve agenda driven sessions. We will discuss on business pain-points and find solutions that can help you create a strategy for resolution. During the assessment we will analyze ways to leverage Synapse Analytics to deliver powerful solutions that meet your present and future business needs.

Agenda

- Identify technology pain points and evaluate solutions during a discussion with the IT team
- Brainstorm with business stakeholders on business objectives and identify gaps through comparison
- Develop insights based on the analysis and consolidate learning objectives, measures, and solutions
- Present summary of assessment and share roadmap for next level of data modernization with Microsoft Azure and Azure Synapse Analytics as next steps based on business and IT needs

Deliverables

- Learning outcomes based on analysis of pain points.
- A document on intended objectives and goals achieved from Synapse
- Articulated Azure Synapse Solution guide to meet business and IT requirements
- Project timeline proposal with benefits

Azure Synapse – SQL Analytics - focus areas

Best in class price per performance

Industry-leading security

Workload aware query execution

Data flexibility

Developer productivity
