

Development Capabilities and Change Management				
Online / Offline editing capabilities	⦿	⦿	⦿	⦿
Cloud history of all change	⦿	⦿	⦿	⦿
Permissioned access to shared models	⦿	⦿	⦿	⦿
Automatic merge and basic conflict detection & resolution	⦿	⦿	⦿	⦿
Enhanced conflict resolution with three-way comparison			⦿	⦿
Develop on branches for controlled release management			⦿	⦿
Develop data transformations (ETL) in end-to-end workflow configuration				⦿

Reporting & Data Analytics				
Generate projected and point-in-time model output	⦿	⦿	⦿	⦿
Model output and input stored in cloud		⦿	⦿	⦿
Embedded data vizualization and business intelligence tools for reporting and analysis		⦿	⦿	⦿
Enriched reporting with shared queries and measures				
Collaborative report query and measure development with branch / merge and conflict resolution			⦿	⦿
Review and sign-off results of end-to-end workflows with storytelling capabilities				⦿
Dimensional data modeling for enriched reporting and performant analytics				⦿

Execution & Automation				
Cloud computing capabilities		⦿	⦿	⦿
Secure model execution experience with ability to source data through:				
Local / corporate file system	⦿	⦿	⦿	⦿
Verifiable cloud library		⦿	⦿	⦿
Automated input data upload			⦿	⦿
Automated end-to-end execution including data transformation, output-as-input, and scheduling				⦿
Extensible run schedule configuration for at-scale execution				⦿
Separate Test and Production execution environments				⦿

Cloud Data Storage

Centralized cloud model storage	○	○	○	○
Disaster recovery	○	○	○	○
Input and output data storage *				
Data storage in development environment		○	○	○
Data storage for test and production execution environments				○
Assumptions management and experience studies (capabilities extend to reporting and execution)				○

* Ability to automate data download available at additional license fee

Operational Support

Integrate help desk	○	○	○	○
Financially-backed SLAs			○	○
Proactive cloud capacity management				○
Annual disaster recovery test				○

Professional Services

Model design services		○	○	○
Annual model review		○	○	○
Annual updates to standard code			○	○
Target Operating Model				○
Annual process review				○
