

Microsoft Dynamics 365 for Higher Education

Ledgeview partners
LedgeviewPartners.com

EXTENSIVE INDUSTRY KNOWLEDGE

Ledgeview Partners has provided Microsoft Dynamics 365 solutions to higher education institutions since it was founded in 2007.

Ledgeview's Microsoft Dynamics 365 solutions for higher education have helped campuses across the nation create meaningful connections with their students and communities, provide timely and clear communications to students, attract quality candidates, collect applications to admit or deny students, support campus wellness and safety protocols, and much more.

By putting the unique needs of higher education first, Ledgeview ensures the best results with Microsoft Dynamics 365 for campuses across the nation. We are dedicated to helping you take care of your students, their educations, and their relationship with your campus throughout their lifetimes.

LedgeviewPartners.com

"We joked with our project manager at Ledgeview that we thought we were missing something because our Microsoft Dynamics project just went that seamlessly. In all seriousness, the folks at Ledgeview were amazing. I can't think of a single complaint or opportunity for improvement."

"Ledgeview has been a great partner, and I stress the word 'great'. We tagged-team this effort, and we work with a lot of vendors – some are great and others not. Ledgeview is definitely great."

Higher Education**
8 weeks for \$60k

We Help Higher Education with Microsoft Dynamics 365:

- **Inquiry Management:** Tracking potential student inquiries, routing the inquiry to the right admissions counselor for assessment, auto-creating an activity schedule to stay in touch with prospective students, activity tracking for all correspondences with prospective students, and managing onsite visits.
- **Application Management:** Viewing/entering applications, managing references, routing applications to the right admissions counselor for evaluation to admit or decline, and track activities for all correspondences with applicants.
- **Transcript Management:** Viewing/entering transcripts and relating outside coursework to your institution's course catalog.
- **Program Evaluation Reports:** For transfer students, reporting on transferred credits against your program requirements.
- **Migration of Data** from your existing sources into Microsoft Dynamics 365.
- **Integration with Backend Software:** Such as CampusVue for Student and Course data (to support **outside coursework for your courses**).
- **SharePoint Integration** for document management.
- **OPTIONAL for Additional Costs:** Applicant PowerPortal and/or Marketing Automation to facilitate inquiry and manage your applicants' journeys.
