

# iManage Managed Services

www.Cornerstone.IT

Work the way you want to work – from anywhere.

**NIST 800 171 Compliant**

## Minimize Cost

**Your iManage Document Management System is critical.** iManage requires a high level of expertise to keep it running smoothly and up-to-date. Have our team of iManage certified engineers administer, monitor, maintain, and support your DMS 24/7 – saving you the cost and stress of doing it in-house.

Are you familiar with any of these scenarios?

Manually searching for documents because indexer is not working.

Dealing with a slow and inconsistent system.

Struggling to import/export mass amounts of documents.

Difficulty setting up ethical walls in a hurry.

Finding it impossible to check for unusual document access?

Attorneys complaining, they cannot file emails.

## Improve Security

**Secure Your Documents & Prevent Data Loss**  
Leverage Cornerstone.IT to enable and administer iManage's security products, Threat Manager and Security Policy Manager.

## Ensure Reliability

Monitor

Maintain

Support

Peace  
of  
Mind

We monitor on-prem and cloud iManage services, including connectors to email and accounting systems, and connectivity to iManage Cloud services

We apply security patches, bug fixes, and upgrades, and add new features such as Threat Manager and Security Policy Manager

Available 24/7. Open a ticket or call our emergency hotline.
