

# Agile With Confidence 2-Week Assessment

Polaris Agilists will uncover ways to increase momentum and improve your teams' ability to develop great software and deliver value.

See what customers are saying:

*"Polaris dropped in the team and showed us the way."*

– Dan Blake, CTO, Aspire

## WHAT WE OFFER

In this two-week assessment, Polaris experts will combine interviews with hands-on work and observations to get a true picture of current state of operations processes within your application teams. We will assess the interactions of people, process, and tools. We will layout the desired future state, identify the gaps, and show you how to develop a more effective and efficient operation.

### Key Areas of Focus

- Agile Foundations
- Team Dynamics
- Requirements Engineering
- Project and Product Management
- Customer Satisfaction
- Clarity of goals and alignment
- Development and QA Practices

Polaris will provide a tailored coaching plan for each team to help accelerate delivery of business value. We will train the teams to develop a roadmap and backlog of actions to prepare for and implement the recommended changes.

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
