SIMPLIFY & ACCELERATE GROWTH WITH APPLICATION MODERNIZATION

2bcloud's Unique End-to-end App Modernization Methodology

1 Assessment

Gathering information on your environment, business challenges, goals and KPI's for your definition of success.

2 Design

Plan and document the new architecture in line with your business roadmap. Technology selection, build strategy, cost estimate, and timeline.

3 Implementation

Building the planned solution on your Azure environment. Iteration, as necessary.

HOW DO WE MEASURE SUCCESS?

- Reduced time to market for product, modules and feature updates
- Enhanced ability to scale
- Increased use of serverless technology
- Reduced operational costs
- Optimized processes
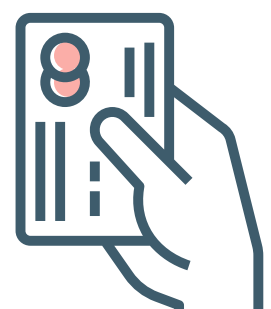

Enable Rapid Changes

Continuous delivery, seamless scalability, and ultimate agility

See the Business Benefits of Cloud

A mixed technology stack, geo-redundant capabilities, and fully managed resources

Reduce TCO

Less resources = less costs, and you only pay for what you use
