

HOW TO BEGIN THE GDPR JOURNEY?

1

Discover

Identify what personal data you have and where it resides.

2

Manage

Manage how personal data is used and accessed

3

Protect

Establish security controls to prevent, detect, and respond to vulnerabilities & data breaches

4

Report

Action data requests and keep required documentation

3 Week Assessment of IT Infrastructure for GDPR

UnifyCloud will help you start your journey to GDPR compliance. Our experts in IT Infrastructure, Security, and Governance & Regulatory Compliance will guide you every step of the way.

- Discover your on-premise IT environment
- Our analysis goes beyond a survey. We provide a data-driven analysis of what your organization has in place today for IT infrastructure and Cybersecurity and Data Protection solutions
- The Cybersecurity program maturity evaluates the extent to which 3rd party Cybersecurity solutions are helping with GDPR compliance sustainability (or not).
- GDPR Maturity Model identifies gaps and next steps

GDPR Assessment Journey

GDPR Assessment Part 1 – Your IT Infrastructure

GDPR Assessment Part 2 – Your Journey towards GDPR Compliance

GDPR Assessment Part 3 – Your Cybersecurity Program for GDPR
