SILVERSANDS

MCAS Threat Protection Review

Discover threats and vulnerabilities in your organisation with Silversands and Microsoft Cloud App Security (MCAS)

The modern workplace faces an ever-changing threat landscape. Protecting Identities, Endpoints, Data, Apps and Infrastructure is increasingly complex. Many organisations are not prepared or resourced to meet these challenges.

What is Microsoft Threat Protection?

Microsoft has gathered multiple integrated services providing a comprehensive end-to-end protection platform for the entire enterprise. Many organisations are already licensed for many of the components without utilizing them to their full effect.

Why Silversands?

Silversands is an IT Consultancy specialising in Microsoft 365, Azure Cloud & Hybrid Infrastructure. Through Professional Services and Support we provide cutting-edge expertise to guide organisations on their journey towards a Modern Workplace where users enjoy the full productivity benefits of technology, in a secure and compliant environment.
