

Bookado for Teams

Bookado allows to book rooms and desks directly from Teams application.

It's very simple and intuitive

In Bookado, resources are marked with colors that will quickly show you the status of the room or desk.

FEATURES

Find and book rooms using a list

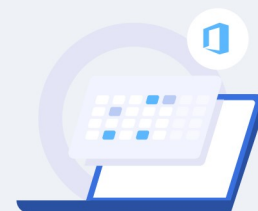

Bookado integrates with your enterprise calendar to list all rooms and show them in order of availability. Simply choose your location and time and book rooms ad hoc or in advance.

Room filtering by location

Filter your list by location and check the availability of specific rooms. Browse only what you need when looking for a meeting space.

Desk Bookings

Employees get a pool of available desks and can view the list in Bookado app. When all spaces are booked, the other employees will know that they have to stay at home that day.

Don't waste time searching for resources

It is intuitive and simple in use

Integrated with your Office 365 calendar
