About eCraft:

We are an award-winning digitalization partner of our customers and named as the Digitalization Partner of the year by Microsoft Finland. For twenty years, we have been delivering digital solutions that help build competitive advantage for our customers. We create business solutions of tomorrow to support our customers' needs in data & AI, business applications and modern work.

About our AI experts:

eCraft is a recognized AI leader in Finland, with countless operational production solutions delivered across multiple industries and public sector. As AI practitioners, we are not researchers – we are seasoned problem solvers, with a passion for your bottom line. Instead of reinventing the wheels, we use ready-made platforms, assets and methodologies to help you win with AI. We can help you in everything you need in AI, from strategic advisory and proofs-of-value all the way to operational production solutions and continuous services.

Our experts include some of the most recognized AI practitioners in Finland, with vast experience in implementing AI together with many of the most well-known brands and businesses in the Nordics.
