

Digital Original Quality

DOQdrive Private and DOQdrive Business Identifies and connects Individuals and Businesses and enables them to establish closed, email free digital processes in a GDPR compliant way.

DOQdrive is the first of its kind solution where all participating Individuals and Companies are 100 percent identified based on their government IDs and all data and information is 100 percent legally original.

DOQdrive is a cloud solution for storing and forwarding digitalized documents that are authentic also in legal terms.

The patent pending DOQdrive document management process can save up to 40-60 percent of the relevant document archiving and handling costs by revolutionizing the data management and archiving processes.

Why customers use DOQdrive

- No need for storage of paper originals, this document handling costs decrease dramatically.
- More efficient yet GDPR compliant closed digital processes.
- All parties are mutually identified based on their government IDs..
