

Customer Success Story

Adecco

Adecco Hungary is having about ten offices in Hungary. In the past documents were transferred in paper original between offices. This process was highly inefficient and time/resource consuming.

DOQdrive backed digital transformation helped Adecco to be more agile and efficient while operational and data security increased significantly.

Size: 3000EUR/Y

Deal Date: 2018

Win Results

New digital processes are more efficient, hence employees can work more on value added processes instead of administration.

Paper based documents are digitalized and transfer between branch offices takes place in fully digital format. The process is safe and GDPR compliant.

Due to the digital transformation of the internal processes supported by DOQdrive resulted in fully paperless processes saving approx.. 3-5K paper pages/mo.
