# Microsoft 365 Security.

## Overview

Protecting systems, data and users has never been more challenging. Whilst cloud-enabled remote workforces have grown, cyber threats are growing rapidly in volume and sophistication. IT security is a top business priority but one of the difficulties is how fast threats and tactics evolve.

While Microsoft 365 (M365) offers security and compliance features, it's up to you to make your environment secure.

**Secure IT the right way. Fordway.**

# Advanced Security.

## Introducing

Fordway's '**Cloud Native**' **Security Service**, in conjunction with your **Microsoft E5 Subscription**, enables organisations to realise the true value of their M365 investment. Built on **Microsoft Security Center** and an **Azure Sentinel** platform, our customers have access to some of—if not the—best security tools on the market.

For complete peace of mind it delivers advanced threat detection and in-depth investigation capabilities to ensure our customers are always protected. The platform provides improved visibility and increased threat response time—all while proactively hunting for cyber threats.

These services are reliable, modular, flexible, and scalable by design - an ideal choice for these rapidly changing times.

**Manage IT the right way. Fordway.**

# Fordway M365 Security.

We harness the key tools available within your E5 subscription to deliver a secure modern workspace where your users, devices and data are safe. The combination of tools provide a holistic and integrated approach to your security.

## Monitored & protected 24x7

Fordway's Cloud Security Team monitor and react to both real-time and historical events using detailed investigation techniques to identify root cause and remediate where required. Having this simplified and expertly managed reduces exposure to the risk of threats, vulnerabilities and the likelihood of mistakes.

As part of the service, Fordway provides weekly and monthly reports with insights in to the threat landscape and agrees remediation actions where necessary.
