ConnecTEAMS

lantechlongwave

ZUCCHETTI GROUP

ConnecTEAMS Target: companies of any market with geographically distributed or mobile users, and who need constant collaboration with external interlocutors.

Challenges

Simplicity and integration with productivity tools

- One tool for calling, meetings and events
- Usable from pc, smartphone and meeting room equipment
- Total integration with e-mail, Office package, calendar and applications

Ideal Solution

- Freedom of choice of devices
- Need to collaborate anywhere and anytime
- Immediate usability by anyone

- Can be used with any device
- Can be used from any location and on the move
- User experience common to individual productivity applications used every day

Desired Outcomes

Companies with distributed and mobile users and virtual teams that can also include actors outside the company (consultants, collaborators, customers, suppliers, etc.). The goal is to aggregate anyone simply and quickly.

- Born to manage work teams
- Connects internal and external users regardless of their location or their devices
- Connects internal and external users regardless of the technological platforms they use

We build bridges to help our customers in the digitization process.

Freedom of choice

- Cloud platform and cloud or on-premise technology
- Several type of devices
- Usability anywhere and anytime

Integration

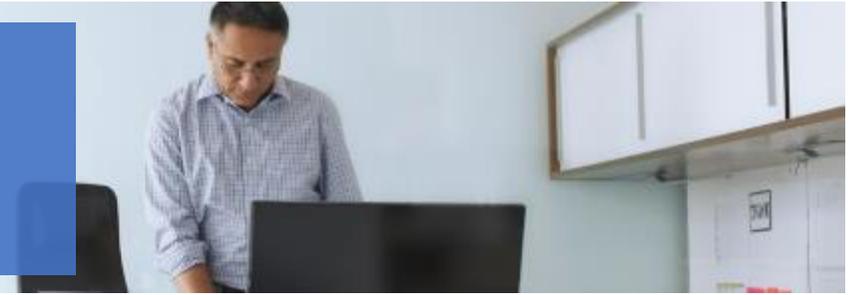

- Integration with existing PBX
- Compatibility with third part infrastructures
- Integration with audio/video automation systems for meeting rooms

User-experience

- Usable in any situation
- Use of well known applications
- Working teams centric

ConnecTEAMS allows you to efficiently and totally combine video/voice and events with the management functions of working teams.

Lantech Longwave ConnecTEAMS + Microsoft Teams

Microsoft Teams opens new scenarios that increase the level of collaboration.

ConnecTEAMS allows you to maximize these advantages ensuring compatibility with what exists, combining the best of today and tomorrow.

Solution Alignment

MS Teams & ConnecTEAMS: COLLABORATION

The solution, natively integrated with MS365, also becomes usable with existing infrastructures.

MS Teams & ConnecTEAMS: WORKING TEAMS

Virtual teams regardless of available technologies.

MS Teams & ConnecTEAMS: INTEGRATION

Protecting investments and immediate access to benefits.

Customer Success Story

UNINDUSTRIA REGGIO EMILIA

UNINDUSTRIA REGGIO EMILIA – MS TEAMS E ConnectTEAMS

Unindustria Reggio Emilia has been using video conferencing solutions for twenty years.

With MS TEAMS they extended the collaboration potential, allowing a real management of virtual teams extended to consultants and associates. ConnectTEAMS makes these advantages available regardless of the infrastructure used by external entities.

The solution will soon be extended to live events.

Win Results

“Collaboration between working teams with sharing of workspaces, documents, calendars, multimedia objects. This allowed us to significantly reduce travel and improve productivity”

“Users use an application with intuitive mode of use to access voice, video, chat, documents. Requests for IT support regarding the use of collaboration tools are significantly reduced”

Our consultants can organize meetings with associates, allowing them to use the meeting room systems used by their company
