Why 9Spokes Open?

Always-on, permissioned customer data

Looking to provide more value to your customers? Leverage permissioned data connections and power up your offering with 9Spokes Open.

Wide data coverage

We access data spanning several categories — from accounting, bank feeds, and payroll to point-of-sale, email marketing, and more. The best part? Our data source is always growing!

Standardized data, streamlined service

We clean the data, so you don't have to. Rich metadata attributes are included for quick and painless data classification.

Trusted globally

We've spent almost 10 years collaborating with app and banking partners worldwide. It's a privilege to support strategic global trailblazers, like Microsoft and [Visa](#).

Procure insights, not just data

We clean the data, so you don't have to. Rich metadata attributes are included for quick and painless data classification.

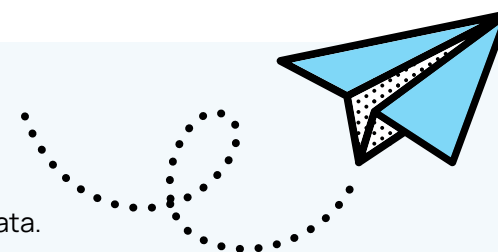

Ensure bank-grade security

We're ISO27001-certified and operate a sophisticated information security system. To ensure data is fully protected, we undergo rigorous external testing.
