

# Azure DevOps Pipeline Accelerator

## ABOUT POLARIS SOLUTIONS:

Polaris Solutions is a Modern Software Solutions firm that delivers Application Modernization, Agile Enablement and Azure DevOps consulting services.

### See what customers are saying:

"They are the premiere .NET dev org in the mid-west...the right people, right process, right technology. Polaris has the .NET stuff nailed!"

— Mark Sundt, CTO, Clearent

## WHAT WE OFFER

Speed your releases with this Polaris delivery acceleration solution. Streamline the end-to-end development pipeline and deliver value to your customers faster.

### Key Areas of Focus

- Repository and shared code organization
- Automated builds including code analysis and test coverage
- Multi-stage environment buildout (VMs, containers, and cloud native)
- Automated deployments
- Release management with approval gates and chains
- Deployment and operating metrics and analytics

In this one-week accelerator, Polaris will work directly with your team to create, configure, and test automated deployments to support continuous integration and delivery of your applications, websites, and services.

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
