

Utilize our superior technology to visualize and improve employee experiences.

About Hive Video Optimization

Hive Streaming is a force multiplier designed to take your live and on-demand video capabilities to a whole new level. No other company or tool provides the tools or the insights on engagement and adoption when it comes to large scale video experiences within a company network. We help global organizations democratize and grow their internal communications and we can help you, too.

How do I know if Hive is right for me?

Get your company network ready straight away to host large-scale video events. There's nothing to build as we use your existing infrastructure to deliver seamless corporate video experiences with greatly reduced bandwidth requirements.

With Hive Video Optimization you can reach your entire workforce with large-scale optimized video experiences that promote better employee engagement and healthier internal communications.

If complaints about poor video quality, dropouts or limited accessibility with your current network are consistent and/or growing

If you're interested in also benefitting from the metrics to understand the analytics **AND** keen to cut costs for premium streaming benefits through a complete package deal

If you're looking to understand how video is being consumed by your company and how to improve your total video experience

If you want real, actionable insights to promote broader video uptake

If you want to identify potential weak spots or bottlenecks in your network before a video event and solve these issues to ensure your smooth town hall event runs smoothly

We are very happy with our decision to deploy Hive Streaming. The results are beyond our expectations and, as a result, we are confident in Hexion in embracing video communications internally leveraging Office 365 and Microsoft Teams.

 **HEXION**
