

A Single Connection

To An Open Distribution Marketplace

For Travel Providers and Hoteliers

Taming the Complex

Managing a Multi-Supplier Strategy for Sourcing Rooms

Accommodation can be sourced either directly, via Third-Party

Aggregators and through Channel Managers.

Challenges Faced by Travel Providers

- Hard to stay up to date with current API versions
- Difficult to de-duplicate and map hotel rooms from different channels
- Expensive to maintain the technical architecture
- Slow to onboard new suppliers
- Managing booking discrepancies and reconciliations are costly

A New Integration Hub

Tap into CodeGen's fully fledged standalone Host to Host (H2H) rest API that offers a full breadth of third-party connections aggregated across multiple components and inventories to offer the best holiday product.

- Aggregator of Real-Time H2H
- Connections Aggregator of Channel Manager and PMS Connections
- Next-Gen Distribution Hub

A New Paradigm in Accommodation Booking

Transparent . Seamless . Profitable

Connect Directly with the Supply

Eliminate booking failures with real-time availability, rates, inventory and rich content.

Streamline the Booking Process

Seamlessly automate bookings by integrating Tritium with your existing booking engine. New inventory and better returns.

Better Speed-to-Market

Save time and resources trying to plug-in too many APIs. Choose Tritium and tap into new revenue streams

Reduce Costs and Improve Bottom-Line

Eliminate inflated commissions, intermediaries and costs associated with multiple API integrations while saving time.

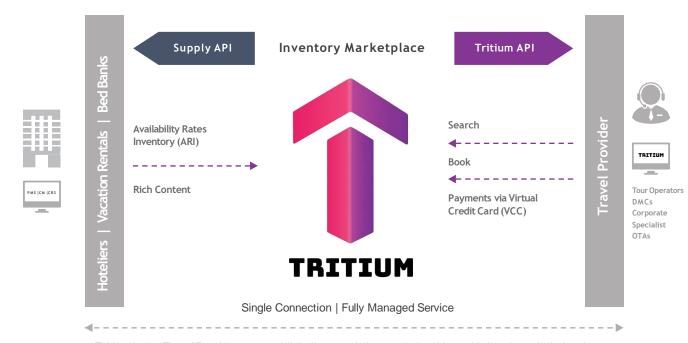

Unified Inventory Marketplace

Get Access to Real-Time Inventory via a Single Connection

To Access Inventory

If you need to source inventory from multiple third-party connectors, Tritium provides you a real-time search and book capability via a single integration.

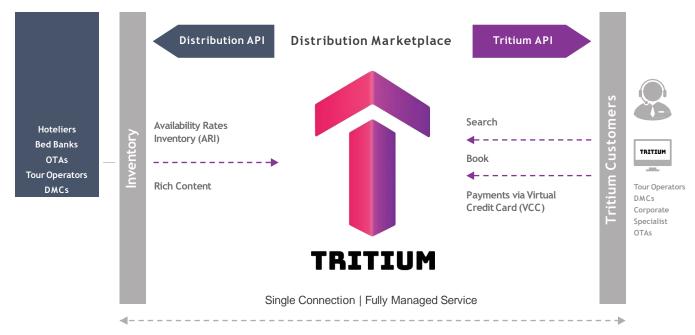

Simplified Distribution Marketplace

Distribute Your Inventory via Multiple Channels

For Inventory Distribution

If you are managing contracted inventory as a distributor, Tritium will provide you a single connection to an open marketplace via multiple channels for easy distribution. As a Tritium partner, you can now buy and even sell effortlessly.

Tritium offers a fully managed service for quick market access and simplified distribution.

Single Direct Access

To a Highly Fragmented Market

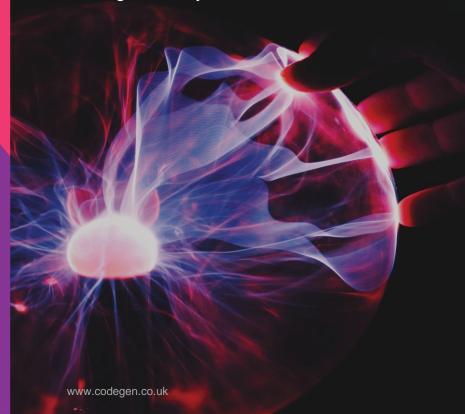

Providing a Single Platform for All Third-Party Connections

Supercharge your travel business by connecting to popular Host-to-Host (H2H) connectors in record-time with Tritium, the ultimate versatile integration hub.

- Reduce Integration Cost
- Enable Multiple H2H Connectors
- Push and Sell Inventory
- Single Booking Path

Next Generation Integration Hub

Enabling You to Buy and Sell in a Flash

- Book wholesale and direct hotel products on one platform.
- Automated hotel and destination mapping.
- Real-time search of live inventory with rich content.
- Robust reconciliation and discrepancy detection.

Supercharge Your Business

With Connections that Matter

"We are moving into an age where dynamic connectivity with the hotels is no longer a luxury but more of a necessity. CodeGen's Tritium product offers DMCs and Tour Operators a seamless way to obtain dynamic rates without the hassle of coordinating with multiple channel managers / consolidators. Backed by CodeGen's reliable support structure, this is an ideal product for every DMC that wants to access dynamic rates for distribution."

Tap Into Limitless Potential

Are You Ready to Grow with Tritium?

- Clients may be required to establish Commercial agreement with third party API vendors and handle supplier payments directly
- Clients may need to have contracts with hoteliers
- CodeGen (i.e. Tritium) will act as "Technology Enabler" and support liaising with third parties on technical matters.
- In case of a financial or other discrepancy, CodeGen will do initial investigations and provide full log and record trail. In scenarios where a third party is responsible, CodeGen will support liaising with Account Managers by providing necessary information for investigations.
