

MEETING INSIGHTS

TURN MEETINGS INTO CONTINUOUS PRODUCTIVITY

Meetings are an important strategic asset, providing a unique space for opinions to be shared and great ideas to be raised. However, the human ability to capture all context and meeting-generated content while actively participating is very limited, meaning most information is lost once the meeting is over.

Meeting Insights is an enterprise solution designed for the meeting-technology world. By leveraging AudioCodes vast voice expertise and state-of-the-art Voice.AI technology, meetings will once again become the place for getting things done, and for retaining the most valuable organizational asset of them all – people and their thoughts.

SOLUTION HIGHLIGHTS

- In-meeting voice assistant that captures all action items, notes, decisions and summaries
- Full meeting transcription specialized for distinct organizational terms
- Search meeting content by key word, speaker or visual content
- Built-in editing, sharing and user email notifications
- Captures multiple sources including in-room & remote participants
- Securely deployed and integrated with Microsoft Teams
