

Azure Synapse Accelerator

Accelerate the customer journey to Azure Synapse with a hands-on accelerator engagement.

Aware Group have designed this Azure Synapse Accelerator to showcase Azure Synapse functionality and integration with the wider Azure platform through a series of hands-on-labs and proof-of-value exercises, leveraging real customer data.

We'll work side-by-side with the customer team to spin up an Azure Synapse workspace and showcase key functionality and integrations. Topics covered include DataOps, Security, Data Lake and SQL, Spark, Machine Learning, Power BI and more.

Accelerator Modules

- Synapse Foundations
- Analysis Services
- ARM Templates
- Machine Learning
- Cost Management
- Security
- Monitoring
- CI/CD Integration
- Power BI
- Database Testing

Each engagement is targeted to the customer's needs but may include:

Discovery

Planning & preparation to gather background on customer, define approach and business problem.

Milestone 1

Azure Synapse overview, spin up workspace in customer tenant, deep-dive into business problem.

Milestone 2

Migrate data related to business problem from existing data store into ADLS.

Milestone 3

Establish schema, run hands-on-labs with migrated data, intro to insights and analytics.

Milestone 4

Integration with wider Azure platform services, Machine Learning, Power BI reporting.

Close-out

Summary report, future planning, retrospective, next steps + wrap-up.

Is the Azure Synapse Accelerator right for your customers?
