

Health Care – Cloud Assurance

Zscaler™ CSPM

Continuous Cloud Security and Compliance Assurance for Microsoft Azure, Amazon Web Services, and Office 365

Company

A Gartner-recognized leader in cloud security, the Zscaler Zero Trust Exchange includes cloud security posture management (CSPM) services that identify and eliminate cloud risks.

Product

Health care organizations whether provider, payor, pharmaceuticals, or life sciences worldwide, handling **PHI (Protected Health Care Information)** with regulated cloud workloads will now be able to get instant visibility into their security posture and enforce compliance with applicable regulations, data protection laws, and security standards using Zscaler CSPM.

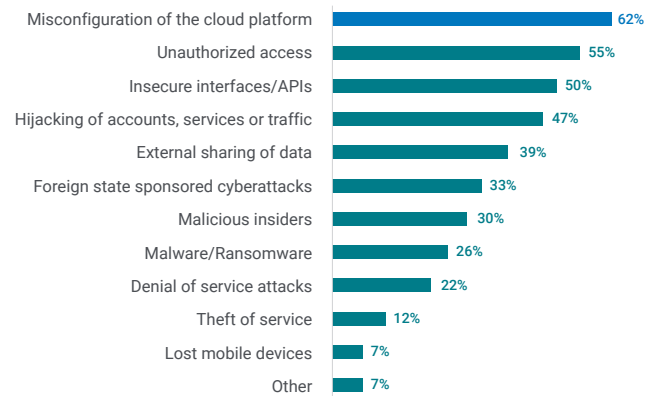

Customers

Enterprises, managed service providers (MSPs) and independent software vendors (ISVs) in the health care industry that store and process health care data, especially those interested in understanding and implementing cloud security controls.

Misconfigured cloud impedes digital transformation

Organizations are challenged to (a) prevent security breaches and (b) prove security for public cloud workloads.

Gartner recommendation

“Through 2024, organizations implementing a cloud security posture management (CSPM) offering and extending this into development will **reduce cloud-related security incidents due to misconfiguration by 80%.**”

Gartner

Offer overview

Product capabilities

Various product capabilities enable proactive management of cloud risks

Single Sign-On

Visibility	Governance	Administration	Integrations
Security Posture Compliance Posture OS Security Policies Risk Posture Prioritization	Cloud Security Policies Compliance Frameworks Remediations (Auto, Guided) Policy Exceptions	Users and Roles Cloud Accounts Scan Frequency Notifications	Data Feeds Co-Branding Ticketing CI / CD
🔒 Cloud Connectors (Control Plane APIs)			
Azure	Office 365	AWS	Google (roadmap)

Items marked with 🔒 have limited capabilities as described below. Eligible customers can request limits be removed/relaxed for the evaluation period. Offer is subject to change.

License quotas and restrictions

Below SKUs indicate the number of cloud accounts pre-allocated per license

- **Healthcare_1** Includes a total quota of any one (1) cloud account across any cloud connectors.
- **Healthcare_5** Includes a total quota of any five (5) cloud account across any cloud connectors.
- **Healthcare_10** Includes a total quota of any ten (10) cloud account across any cloud connectors.

For all SKUs, there's a soft restriction on the number of resources within a cloud account.

Restriction: Azure and AWS - Up to 500 total resources; **Office 365**: Up to 1,000 users.

Compliance bundles included

Security	Compliance	Privacy
  	      	 GDPR
