®

ONE IDENTITY

Security and Digital Transformation

Companies need to move faster and more seamlessly than ever before. Providing partners, employers and clients with immediate, secure access to what they need, when they need it, wherever they need it.
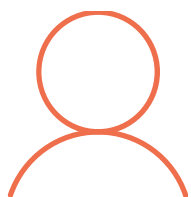

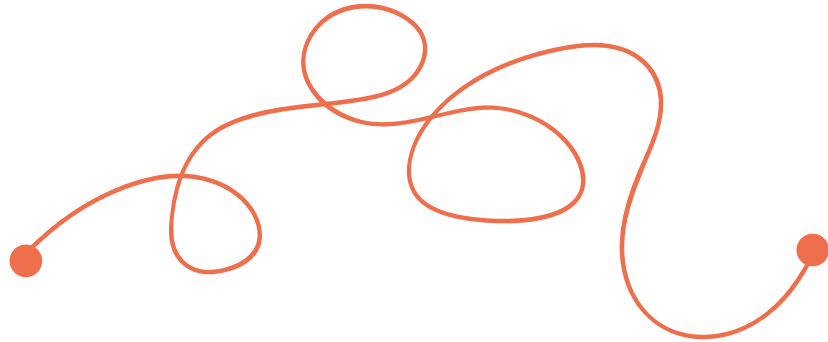

Right individuals

Right resources
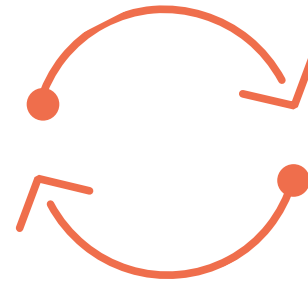

Right time

Right reasons

One Identity Manager enables the right individuals to access the right resources at the right times and for the right reasons

Audit and compliance

Determining user and privileged access, tracking approvals and documenting who has access to improve compliance can be a complicated process
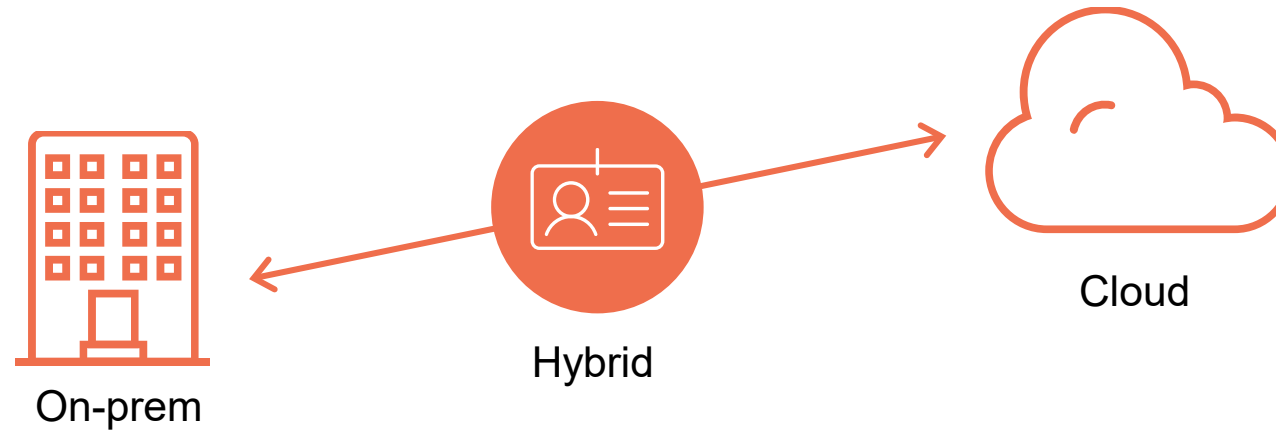

Complicated processes

Automated simple processes

One Identity Manger supports regulatory based standards. It can automate audit reporting and simplify the processes

# Digital Transformation

Most organizations have complex infrastructures with identities spread across sources.

On-prem

Hybrid

Cloud
