- 1) This icon allows the user access to the schedule- assigned work order task list for technician.
- 2) Work order task view by list, Daily, weekly calendar or monthly calendar.
- **3)** Display released work order following technician task or all technician tasks, refresh data and filter data.
- 4) The work order task selected to show details.
- 5) Report maintenance to work order task selected.

• Create task from the schedule

- 1) Add new line following the selected Work order
- 2) The browser of the selected page
- 3) We can duplicate selected task or create a new WO line with Work prodedure or create and edit a new WO line

•
