

Welcome to the CiraSync Partner Program

Syncing Office 365 GAL, Public Contacts, and Calendars for Enterprise Smartphones

Your enterprise clients need to access the Microsoft Office 365 contact database and shared calendars on their mobile devices: Microsoft messaging systems do not provide this capability.

Now, the Office 365 missing sync problem is solved with CiraSync.

CiraSync instantly and automatically syncs enterprise GAL, public contacts, and calendars to smartphones enabling your clients to access the latest contact information with full confidence in the accuracy of the data.

CiraSync Benefits

Your enterprise clients can instantly sync shared contacts, public folders, and calendars to smartphones with the following advantages:

Business smartphones always synced, anywhere, anytime

Immediate deployment with minimal configuration

No software to install

No user training needed

CiraSync SaaS Platform

Our enterprise cloud SaaS platform automatically syncs shared contacts and calendars to Outlook-enabled Office 365 connected smartphones. Consultants and managed service providers (MSPs/CSPs) all over the world use CiraSync as an immediate win for their customers.

The CiraSync Partner Portal

With the CiraSync Partner Portal, you can quickly and easily manage tenant relationships, usage, and billing from a single console. You can also assign collections (groups) and privileges and ensure maximum value for users.

Getting started is easy; we have helpful tools to configure and monitor sync activity for your clients/tenants.

Partner Portal Key Features

Central Control: Manage all clients/tenants, users, and billing through the Partner Portal

Real-Time Summary Dashboard: Track active subscriptions, view current sync status, schedule feature syncs, and view error reports

Scalability: Add dozens to thousands of users daily

Control Role Privileges

Roles-based admin privileges for your own team

Permissions for your team on specific tenants

Tenant permissions so that each tenant can see real-time views of their sync activity

CiraSync Billing with Daily Subscription Units

Our innovative billing satisfies your clients and helps you to grow revenue.

CiraSync bills you through **Daily Subscription Units (DSUs)**, which are single-day subscriptions. The units can be purchased in bulk and assigned accordingly – the licenses never expire.

We allow your subscription to be pooled together across your entire client base of tenants.

You are only billed by the aggregate license consumption each month. We understand your business and know you don't want to pay for capacity which cannot be billed to your clients.

How to Use DSU Billing for your Clients

Pool DSU usage across your entire client base:

- Shift allocation of DSUs from one client to another as needed
- Track consumption and availability of DSUs easily and accurately
- Increase total usage of DSUs at any time
- Throttle back during month-end true-up period
