

IoT Connect Mobile

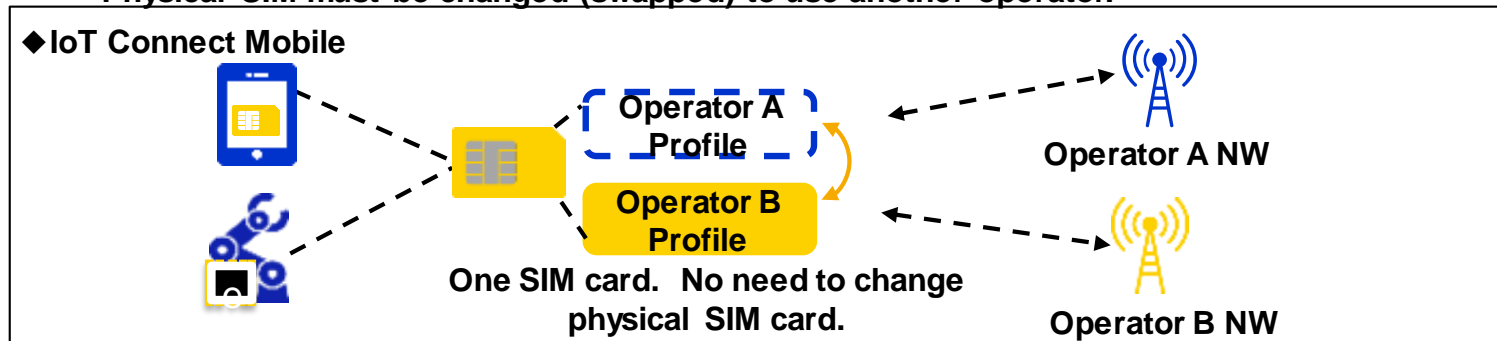

DCR-01208-SM-1.0

August 30, 2019

What is e-SIM?

- ✓ Customer needs to sign up the contracts for both operator A and B which are suitable in each country .
- ✓ Physical SIM must be changed (swapped) to use another operator.

No matter where you use it, you just sign up.

If you would like to change operators, you can switch operator on remote basis.
