

# Ignite for Microsoft Security

Establish industry best practices with planning, configuration, deployment, and management of Microsoft 365 E5 Security Services.

## 73% of CISOs indicate their organizations encountered data leak and spillage in the last 12 months\*

Is your organization's cloud environment as secure as you think it is? Organizations today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Given the complexity of identities, data, applications, devices, and infrastructure, it is essential to learn how secure your organization is right now, and how to mitigate and protect against threats moving forward.

Apex Digital Solutions recognizes the impact these challenges can have on your business security and productivity. Ignite for Microsoft Security prepares your organization for a secure modern workplace.

## Our Solution

**Ignite for Microsoft Security** provides you with best practices guidance for configuring and deploying Microsoft 365 E5 Security services, as well as 90-days of advisory and management services to ensure your success.

Apex Digital Solutions works with your team to:

- Review your current security, device management Microsoft 365 security tools
- Implement and configure Exchange Online Protection, Defender for Office 365, Defender for Endpoint, Defender for Identity, Microsoft Cloud App Security, and Azure AD Identity Protection
- Develop documentation and an end-user training program for new email filtering, quarantine, and email encryption features
- Provide three months of Aegis Assist, our managed security services to ensure successful adoption and outcomes with Microsoft Security solutions

**Microsoft 365 Defender** is a unified enterprise defense suite that provides integrated protection against sophisticated attacks.

- Preventative endpoint protection, post-breach detection, automated investigation, and response
- Safeguards against malicious threats posed by emails, links, and collaboration tools
- Identifies, detects, and investigates advanced threats
- Deep visibility, strong data controls, and enhanced threat protection for cloud apps

Apex Digital Solutions can assist with the evaluation, purchase, deployment, and long-term support and success management of Microsoft 365 Defender so you can securely run and grow your business.

 Microsoft | Microsoft 365 Defender, Microsoft Cloud App Security, Azure AD

## Benefits & Outcomes

Microsoft threat protection tools work together to help secure your email, data, devices and identities against the growing, increasingly costly risk of cyber threats. Apex Digital Solutions gives you the confidence and roadmap you need to reach your desired organizational outcomes:

- Reduce the impact to employee productivity, while still ensuring secure and intentional access
- Mitigate malware that originates in email attachments or hyperlinks
- Prevent malicious actors from being able to compromise user accounts
- Develop a maturing security strategy to adapt to the continually complex nature of threats

## Empowering Customers

Our approach to driving successful customer outcomes is defined by the **Customer Empowerment Feedback Loop**. This solution framework was developed by Apex Digital Solutions to support customers adopting new technologies. Our Ready, Ignite, and Empower solution offerings are designed around the customer journey from assessment and planning, to deployment and adoption, to support and long-term management. Together, these offerings propel customers forward to realize long-term benefits from their technology investments.

### Customer Empowerment Feedback Loop

## Our Microsoft Partnership

Apex Digital Solutions is an award-winning Microsoft Gold Partner. Our team of experts are certified in Microsoft platform and cloud solutions including Office 365, Enterprise Mobility + Security, Windows 10, and Azure.

## We Are Passionate About People

Since 1999, the purpose at Apex Digital Solutions has been to "Empower people to make a positive difference in the lives of others." One of the many ways our team achieves this each day is through transformational experiences and solutions to become more secure, productive, and engaged.

### Technology for People's Sake

We know technology enables success for your business. That is why we have built our business around empowering success for all of our customers through technology solutions.

Here are our promises to you:

### We Bring the Team

Your core business is your expertise, technology solutions is ours. Our team of certified technical specialists follow best practices for successful deployments while our customer success managers remain engaged throughout the life cycle to ensure your desired outcomes are achieved.

### We Solve, Don't Sell

We are here to help you achieve your goals. That means our primary focus is understanding your business and solving problems through technology solutions instead of selling you products that don't meet your needs.

### We Create a Clear and Better Ending

Our business was formed to make a positive difference. We will always be clear about everything related to our services and the impacts of decisions made throughout our engagement with you. We will help you take advantage of technology for the betterment of your people.

The experience that Apex brought to turning on Microsoft Security features saved our team months of work.

– Senior Director of Information Services, Michigan-Based Non-Profit
